About e-volve

e-volve, LLC

e-volve provides transformational business services to help clients achieve measurable business objectives, improve performance, lower costs and reduce risk using universally accepted standards and frameworks including ITIL, ISO 20000, PMBOK, Agile, and NIST while maintaining a clear focus on Quality, TCO, and ROI.

e-volve is technology-neutral, sells neither hardware nor software and receives no commissions or fees from vendors. We provide services anywhere in the continental United States.

Jeffrey Morgan, President of e-volve

Jeffrey has provided business and management services for public and private sector organizations since 1993 and his background in information management and security began in 1984 with four years in Army Intelligence.

Jeff publishes Information Technology Governance on CIO.com and his writing on management, governance, and technology can also be found on Careers in Government and on his own blog. Jeff's book, Enterprise Software Procurement is available from Amazon.

Send Jeff an e-mail at jmorgan@e-volvellc.com if you would like to discuss ways to improve your business and IT operations.
